SUMMARY

Information Science Engineering undergraduate with an 8.5 CGPA and hands-on experience in Machine Learning, Full-Stack Development, and AI-powered applications. Google Student Ambassador 2026 with experience exploring and promoting Gemini technologies and AI-powered tools. Built and deployed real-world projects using Python, Scikit-learn, React, Node.js, APIs, and cloud platforms. IEEE Information Theory Society Vice Chair with experience organizing hackathons and technical events. Strong interest in AI/ML, software engineering, and building scalable solutions to real-world problems.

EDUCATION

Sai Vidya Institute of Technology
Bachelor of Engineering (B.E.) in Information Science Engineering **CGPA: 8.5**
2024 – 2028

Kendriya Vidyalaya, Air Force Station, Yelahanka
Class XII (CBSE) – 2023
Science (PCMCS) **70%**

Kendriya Vidyalaya, Air Force Station, Yelahanka
Class X (CBSE) – 2021 **75%**

ACADEMIC PROJECTS

Bharath Sync – AI/ML Air Quality Prediction

- Developed a hybrid ML system for AQI prediction across Indian cities using Random Forest, Gradient Boosting, and LightGBM.
- Integrated environmental data processing to generate 24-hour and 7-day AQI forecasts with interactive pollution analytics.
- Built a user-friendly dashboard for AQI trends and real-world air-quality monitoring.
- **Tech:** Python, Scikit-learn, LightGBM, Random Forest, Gradient Boosting, Pandas, Streamlit.
- GitHub Repository

AI Retinal Analyzer – AI-Powered Vision & Generative AI

- Built an AI-powered application that analyzes retinal fundus images using computer vision techniques.
- Implemented image processing to examine the optic disc, blood vessels, and macula.
- Integrated Google Gemini to convert analysis results into structured AI-generated medical-style reports.
- **Tech:** Python, OpenCV, Computer Vision, Google Gemini, NumPy, Pillow, Streamlit.
- Live Demo

Local Mesh Alert System – Real-Time Emergency Communication

- Developed a decentralized local communication system for critical alerts when traditional internet connectivity is unavailable.
- Implemented real-time communication using WebRTC and Socket.IO for local alert exchange.
- Designed for hotels, campuses, network outages, and emergency situations.
- **Tech:** JavaScript, React.js, Node.js, WebRTC, Socket.IO.
- Live Demo

HACKATHON EXPERIENCE

Hackathon Finalist (6+ Events)

- Winner, Cypher 4.0 Hackathon (2026): Secured 1st Place among 450+ participants at Atria Institute of Technology, Bengaluru.
- Participated in multiple national-level hackathons focused on AI/ML, sustainability, education, and social impact.
- Developed real-world solutions using Machine Learning, Full-Stack Development, and REST APIs.
- Built projects including AI-Based AQI Monitoring, Personal Finance Predictor, and Placement Training LMS.
- Demonstrated rapid prototyping, problem-solving, teamwork, and technical pitching under tight deadlines.

SKILLS

- **Programming:** Python, JavaScript, Java, C
- **Frontend:** Vue.js, React.js, HTML, CSS, Tailwind CSS
- **Backend:** Django, Django REST Framework, Node.js, Express.js
- **APIs:** REST API Concepts and Integration, JSON
- **Database:** SQL, PostgreSQL, MongoDB, Mongoose, Basic DBMS Concepts
- **Machine Learning:** Scikit-learn, Pandas, NumPy, LightGBM
- **Version Control:** Git, GitHub
- **Operating Systems:** Basic Linux/Unix Commands
- **Real-time:** WebRTC, Socket.IO
- **Tools:** VS Code, Postman, npm, Oracle Cloud

CERTIFICATIONS

- Postman API Fundamentals Student Expert
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Artificial Intelligence Fundamentals – IBM
- Introduction to Large Language Models – IBM
- Generative AI Mastermind – Outskill
- Applied AI Foundations – OpenAI
- Claude Academy: AI Fluency: Framework & Foundations – Anthropic
- Agents and Workflows – OpenAI
- Gemini Certified University Student – Google

POSITIONS OF RESPONSIBILITY

- **Vice Chair, IEEE Information Theory Society, SVIT** – Leading workshops, hackathons, and technical initiatives.
- **Google Student Ambassador 2026** – Conducting developer events and community engagement.
- **Open Source Contributor, GSSoC** – Contributed to open-source development and collaborated through GitHub.
